Annexure - B Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, ("the Act") LEEL ELECTRICALS LIMITED on the Standalone Financial Statements for the year ended March 31, 2020

1. In conjunction with our audit of the Standalone financial statements of **LEEL ELECTRICALS LIMITED ('the Company')** as of and for the year ended March 31, 2020, we have audited the Internal Financial Reporting ("IFCFR") of the Company as of that date.

Liquidator's Responsibility for internal financial controls

2. The Liquidator is responsible for establishing and maintaining internal controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Notes") issued by the Institute of Chartered Accountant of India ("ICAI"). These responsibilities include the design, implementation, and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit by the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating and design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.
5. We believe that we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes by generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of Standalone financial statements by generally accepted accounting principles, and that receipts and expenditures of the company are being made only by authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding the prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis of Disclaimer Opinion

8. Due to the nature and significance of the matters described below, we were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the internal financial controls over financial reporting of the Company:
 - 8.1 The company has not maintained necessary statutory records for verification, including records related to Excise, GST, TDS/TCS, Provident Fund (P.F.), and Employee State Insurance (E.S.I.)
 - 8.2 The accounts have not been prepared in compliance with the mandatory Indian Accounting Standards (Ind AS), which has resulted in improper reporting of financial items in the financial statements.
 - 8.3 The financial statements, including various balance sheet items like Property, Plant & Equipment, Capital Work in Progress, and others, may not accurately reflect the company's financial position due to these lapses.
 - 8.4 Due to the lack of confirmation of the physical existence of the Closing Stock and its failure to be valued at either Cost or Net Realisable Value, we are unable to obtain sufficient appropriate audit evidence to determine whether the Closing Stock is fairly stated. As a result, we are unable to form an opinion on the Closing Stock and, consequently, on the standalone financial statements of the Company. Our audit report expresses a disclaimer of opinion on these financial statements
 - 8.5 Due to considerable delays, and in many cases non-payment, of statutory dues and the failure to file statutory returns such as TDS, Income Tax, GST, etc., coupled with the lack of effective internal financial controls over the financial reporting of the Company, we are unable to obtain sufficient appropriate audit evidence regarding the completeness and accuracy of these obligations. Furthermore, the Honourable NCLT Allahabad Bench, Prayagraj, has directed the Liquidator to ensure the filing of these returns. As a result, we are unable to form an opinion on the financial statements, and our audit report expresses a disclaimer of opinion on these financial statements

8.6 Due to the lack of confirmation and reconciliation of balances related to trade receivables, trade payables, other liabilities, and loans & advances, and the absence of necessary adjustments to the carrying values of these assets and liabilities, we are unable to obtain sufficient appropriate audit evidence to assess the accuracy and completeness of these amounts. Additionally, the absence of effective internal financial controls over these areas further limits our ability to determine whether adjustments are required. As a result, we are unable to form an opinion on the standalone financial statements, and our audit report expresses a disclaimer of opinion on these financial statements. A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control with reference to financial statements, such that there is a reasonable possibility that a material misstatement of the Company's standalone financial statements will not be prevented or detected on a timely basis.

Disclaimer Opinion

9. In our opinion, and to the best of our information and according to the explanations given to us, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the internal financial controls over financial reporting of the Company. Accordingly, we do not express an opinion on the effectiveness of the Company's internal financial controls over financial reporting. Furthermore, based on the criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI, we believe that the internal financial controls with reference to the standalone financial statements were not adequate and were not operating effectively as at March 31, 2020.
10. The material weaknesses identified and reported above have been considered in determining the nature, timing, and extent of audit procedures performed in relation to the standalone financial statements of the Company for the year ended March 31, 2020. These material weaknesses, in our opinion, have a pervasive effect on the standalone financial statements of the Company for the year ended March 31, 2020. As a result, we are unable to express an opinion on those financial statements. Our audit report dated June 30, 2025, expresses a disclaimer of opinion on the standalone financial statements of the Company for the year ended March 31, 2020.

Notes to the Financial Statements

1. Corporate Information

LEEL Electricals Limited (Formerly known as Lloyd Electric & Engineering Limited) is a public company domiciled in India and incorporated under the provisions of the erstwhile Companies Act, 1956. Its shares are listed on National Stock Exchange of India Limited (NSE) & BSE Limited (BSE) in India. The Company is the largest manufacturer of heat exchangers coils in India i.e., BSE Limited ("BSE") (Scrip Codes: 517518) and National Stock Exchange Limited ("NSE") (Scrip Code: LEELB2). M/s Leel Electricals Limited is a company incorporated under the Companies Act, 1956 ("Act") on 10/11/1987 in the State of Uttar Pradesh having its registered office at Unit No. 8, Block-A, Kakrala Main Road, Sector 80, Industrial Area, Phase-II, Noida Gautam Buddha Nagar, Uttar Pradesh- 201305.

The Company had availed various credit facilities from the lenders. During the year 2018 the Corporate Debtor sold their brand named "LLOYD" to pay off the liabilities. As stated in previous annual report there were numerous investigations with regard to the Sales Tax Department, Excise Department, Income Tax and SEBI which led to the disturbance in the operations of the Corporate Debtor. The Corporate Debtor then defaulted in the payments of lenders, Operational Creditors and employees due to the lack of funds.

INITIATION OF INSOLVENCY PROCEEDINGS:-

It is pertinent to mention that, CRP proceedings against LEEL Electricals Limited (hereinafter referred to as "Corporate Debtor") was first initiated on 09/12/2019 which was eventually withdrawn. Further, the Corporate Insolvency Resolution Process of the Corporate Debtor was initiated vide order dated 04/03/2020 of Hon'ble Tribunal. It is pertinent to mention that vide the aforesaid order, Mr. Anand Nigral was appointed as the interim Resolution Professional ("IRP") of the Corporate Debtor.

That the erstwhile IRP published Form-I on 22/11/2020, in pursuant to which 4500's were received in the matter. The last date for submission of Resolution Plan was 21/02/2021, however, no Resolution Plan was received till the due period. Subsequently, the Applicant was appointed as the Resolution Professional replacing the erstwhile IRP vide order dated 21/12/2020 of the Hon'ble National Company Law Appellate Tribunal ("NCLAT"). It is pertinent to mention that in pursuant to the said order dated 21/12/2020, the Resolution Professional wrote an email dated 22/12/2020 to the erstwhile IRP seeking his co-operation in smooth handover of charge. The erstwhile IRP was reluctant initially, however extended his cooperation to applicant vide mail dated 05/01/2021, in continuation of which applicant initiated the process of taking custody and control of the assets of the Corporate Debtor.

Accordingly, the procedure as laid a provision of IBC 2016 read with relevant CRP regulations were followed and accordingly, various CoC meetings were conducted and various Prospective Resolution Applicants were identified. After various rounds of discussion and negotiations by the CoC members in the 20th CoC meeting it was decided that the Resolution plan of one applicant is highly conditional as it contains the clause for withdrawal of the Resolution Plan. Hence, it violates the Hon'ble Supreme Court judgment in the matter of Eklip Singapore v. Committee of Creditors Edconcorp. Thus, the said plan is not required to be put to vote for consideration. The CoC after detailed discussions on the plan submitted by another applicant also decided to put the said plan to vote. It is relevant to submit that the CoC has rejected the Resolution plan submitted by the Resolution Applicant i.e., M/s Andar Enterprises wherein 86.54% of the CoC members rejected the plan. Since the Resolution Plan was not approved by the members of the CoC, the natural consequence for resulting the Corporate Debtor was the Liquidation of the Corporate Debtor.

That in pursuance of the aforesaid, the Applicant herein filed an Application (I.A. No. 356 of 2021) before this Hon'ble Tribunal seeking declaration of the Liquidation of the Corporate Debtor. That vide Order dated 06/12/2021, this Hon'ble Tribunal ordered the Liquidation of the Corporate Debtor and thereby appointed the Applicant as the Liquidator of the Corporate Debtor, pursuant to the appointment as the Liquidator, the Applicant herein published Form-9 on 07.12.2021 in accordance with Regulation 12 of the Insolvency and Bankruptcy Board of India (Liquidation Process) Regulations, 2016 (hereinafter referred to as the "Liquidation Regulations"), inviting claims from the stakeholders of the Corporate Debtor. As per Section 34 of the code, the powers of the Board of Directors, key managerial personnel and the partners of the Corporate Debtor, as the case may be, shall cease to have effect and shall be vested in the Liquidator.

Ganga Ram Agarwal, Liquidator
LEEL Electricals Limited (In Liquidation)
IBBI Reg No.: IBBI/UPA-02/UP-NO0874/2019-2020/12777
Appointed by NCLT, Allahabad Bench vide order dated 06.12.2021

The Company had elected to consider the carrying value of all its intangible assets appearing in the financial statement prepared in accordance with accounting standards notified under the section 133 of the Company act 2013, read together with rule 7 of the companies (Accounts) Rules, 2014 and used the same as deemed cost in the opening Ind AS balance sheet prepared on 1st April, 2015.

The amortization period and method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

An intangible asset is derecognized on disposal or when no future economic benefits are expected from use. Gains and losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the statement of profit and loss when the asset is derecognized or on disposal.

2.6 Impairment of tangible assets and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication based on internal/ external factors that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.7 Inventories

It is pertinent to mention that the said financials are being prepared in view for available data with the liquidator. For the financial year 2019-20 no physical inspection was conducted by the management. However, the opening balance has been carried forward by the liquidator as the inventory cannot be measured at that point of time. 2.8 Foreign Exchange Transactions

These financial statements are presented in Indian rupees (INR), which is the Company's functional currency Transactions

At the end of each reporting period

Monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in profit or loss in the period in which they arise.

Exchange differences on monetary items are recognized in profit or loss in the period in which they arise except for:

Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as adjustment to interest costs on those foreign currency borrowings

The exchange differences arising on reporting of long term foreign currency monetary items at rates different from those at which they were initially recorded in so far as they relate to the acquisition of depreciable capital assets are shown by addition to/deduction from the cost of the assets as per exemption provided under IND AS 21 read along with Ind AS 101 appendix 'D' clause D13AA.

Exchange differences on monetary items receivable from or payable to a foreign operation which settlement is neither planned nor likely to occur (therefore forming part of the investment in the foreign operation), which are recognized initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

2.9 Borrowing Cost

Borrowing costs specifically relating to the acquisition or construction of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the asset. All other borrowing costs are charged to profit & loss account in the period in which it is incurred except loan processing fees which is recognized as per Effective Interest Rate method. Borrowing costs consist of interest and other costs that Company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

2.10 Employee Benefits

Contribution to Provident fund/Pension fund: Retirement benefits in the form of Provident Fund / Pension Schemes are defined contribution schemes and the contributions are charged to the Profit & Loss Account in the year when the contributions to the respective funds become due. The Company has no obligation other than contribution payable to these funds.

2.11 Tax Expenses

Income Tax expense comprises of current tax and deferred tax charge or credit. Provision for current tax is made with reference to taxable income computed for the financial year for which the financial statements are prepared by applying the tax rates as applicable.

Current Tax: Current Income tax relating to items recognized outside the profit and loss is recognized outside the profit and loss (either in other comprehensive income or in equity)

Deferred Tax: Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed as at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will not be available against which deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets are recognized for the unused tax credit to the extent that it is probable that taxable profits will be available against which the losses will be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits.

2.12 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. When acquired, such assets are capitalized at fair value of the leased property or present value of minimum lease payments, at the inception of lease, whichever is lower.

Other leases are Operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and amortized over the lease term on the straight line basis.

As a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Assets subject to operating leases are included in PPE. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue.

As a lessee

Leases in which significant portions of risks and reward of ownership are not transferred to the Company as lessee are classified as operating leases. Operating lease payments are recognized as an expense in the Profit and Loss account on a straight-line basis over the lease term. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

Leases where the lessor effectively transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases and are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

2.13 Fair Value Measurement

The Company measures certain financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Appointed by NCLT, Allahabad Bench vide order dated 06.12.2021

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

A. Primary Segment Reporting (Business Segment)

The Company had availed various credit facilities from the lenders. During the year 2018 the Corporate Debtor sold their brand named "LUOYO" to pay off the liabilities. There were numerous investigations with regard to the Sales Tax Department, Excise Department, Income Tax and SEBI which led to the disturbance in the operations of the Corporate Debtor.

The Corporate Debtor then defaulted in the payments of lenders, Operational Creditors and employees due to the lack of funds. Due to said reasons the operations of the company was closed.

46. Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company is exposed to market risk, credit risk and liquidity risk. The company's focus is to foresee the unpredictability of financial markets and seek to minimise potential adverse effects on its financial performance.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below.

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk.

i) Currency rate risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in foreign currency). The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

Derivative financial Instruments

The Company holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counter party for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

ii) Interest rate risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligation at floating interest rates. The Company's borrowings outstanding as at March 31, 2018 comprise of fixed rate loans and accordingly, are not expose to risk of fluctuation in market interest rate.

iii) Commodity price risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the ongoing manufacture of industrial and domestic air conditioners and therefore require a continuous supply of copper and Aluminum being the major input used in the manufacturing. Due to the significantly increased volatility of the price of the Copper and aluminum, the Company has entered into various purchase contracts for these material for which there is an active market. The Company's Board of Directors has developed and enacted a risk management strategy regarding commodity price risk and its mitigation. The Company partly mitigated the risk of price volatility by entering into the contract for the purchase of these material based on average price of for each month.

b) Credit risk

Credit risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The maximum exposure to the credit risk in the reporting date is primarily from trade receivables. Trade receivables are typically unsecured and are derived from revenue earned from customers.

Customer credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment.
